**DO THE MATH SUMMER SCHOOL**

HELP STUDENTS CATCH UP AND KEEP UP

*Do The Math*® can help your summer school students rebuild the critical math foundations they need to succeed in higher-level mathematics. Designed for at-risk and struggling students, as well as those who require more practice, the program provides the skills and understanding students need to progress to grade-level proficiency during the school year. The easy-to-use collection of resources address a variety of summer school implementations and are ideal for learners during the short summer school period.

**MATH INTERVENTION PROVEN TO BUILD MATH PROFICIENCY**

*Do The Math*’s research-based intervention is proven effective in raising student achievement and confidence. Designed to fit seamlessly into any summer school curriculum, *Do The Math* Summer School aligns to core RTI components and supports any core math program.

**PACING FOR SUMMER SCHOOL**

Planning and Pacing Guides provide content organized by grade level with specific modules combined to create a targeted plan for instruction. Each *Do The Math* module contains thirty 30-minute lessons that give you the flexibility to meet the needs of summer school learners. The Planning and Pacing Guide gives you a pathway through the lessons, as well as additional teaching resources.

**EASY-TO-IMPLEMENT RESOURCES**

*Do The Math* Summer School Bundles (see Grade-Level Bundle Pricing below) include concrete materials, visual models, and engaging games for summer learning. Teacher materials provide clear instructional guidance and professional support. Each bundle includes:

- 1 Classroom Material Box for 8 students
- 8 Student *WorkSpace* Books for 8 students
- 1 Planning and Pacing Guide
